The Study Island SOL Test Benchmarking Program enables teachers to get a snapshot of student proficiencies in relation to the Virginia Standards of Learning. At any time throughout the year, students can be assessed through one of four different benchmarking tests. These assessments will give teachers and administrators valuable diagnostic information that can be used to guide classroom instruction.

HOW IT WORKS

1. Schedule Benchmark

- Study Island Administrator schedules benchmark tests
- The four unique benchmark tests should be evenly-spaced throughout the school year

2. Administer Test

- Students have instant access to the benchmark test when they log into Study Island
- Test is delivered online

3. View Reports

- Real-time reports are automatically generated
- Provides valuable diagnostic information for teachers to guide classroom instruction

The screenshot shows a "Benchmark Gradebook Report" for the "SOL Test Benchmark" in "Math" at "Lincoln Elementary" in "Mrs. Black's Class". The report is for "SOL - Math Benchmark 1". It includes a table with columns for "Reporting Category" (Goal 1: Number and Operations [7], Goal 2: Measurement [4], Goal 3: Geometry [8], Goal 4: Data Analysis and Probability [4], Goal 5: Algebra [7]) and "Total [30]". The rows list student names and their scores and grades for each goal.
